speech and drama education

The Playing Space specializes in Speech and Drama Education. We have been running after-school and weekend classes at our own venues for North London for more than fifteen years, but we also go into schools to run drama clubs, one-off workshops and LAMDA examination classes.

All Playing Space teachers are highly experienced and trained in working inclusively with groups of children. We will ensure that every child is involved in the work at hand. Some of our teachers can use British Sign Language. All are DBS-checked and trained in First Aid.

Please find enclosed more information about our classes. If you have any questions then please don't hesitate to get in touch.

Yours sincerely,
