

The image features a central white rounded rectangle with a blue border, containing the text "Safer Internet Day 2026". This rectangle is surrounded by a decorative graphic of blue lines representing circuit traces, which terminate in small yellow circles. The background is a solid light pink color.

Safer Internet Day 2026

**Have you celebrated
Safer Internet Day before?**

What do you think Safer Internet Day might be about?

Charities

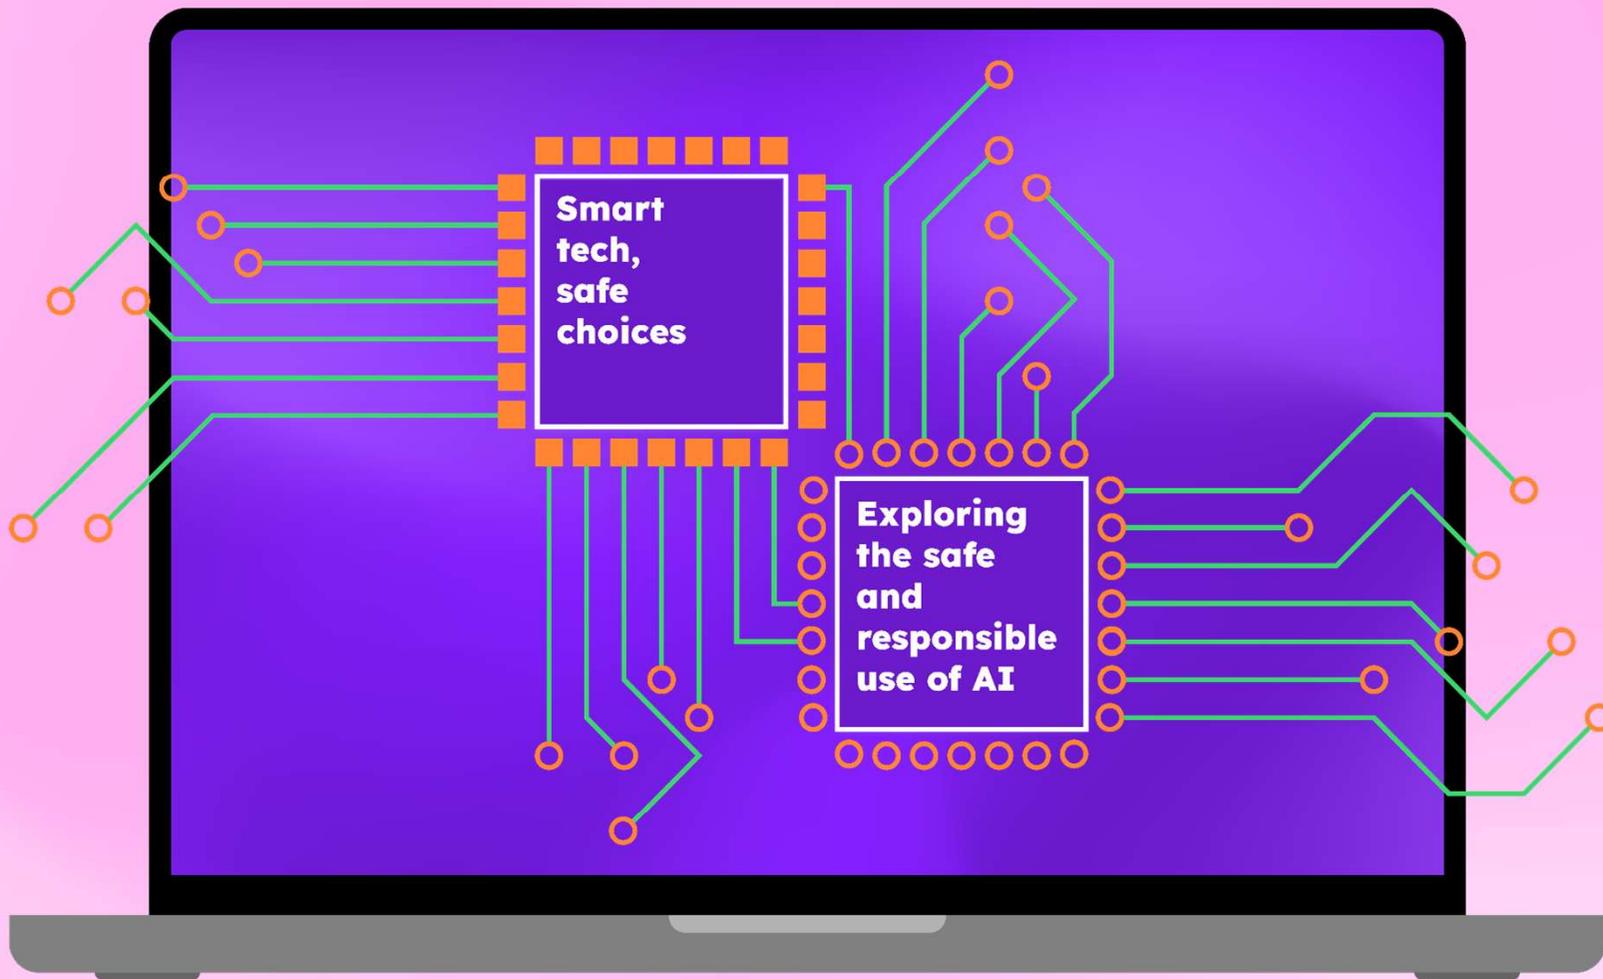

Sports Clubs

The police

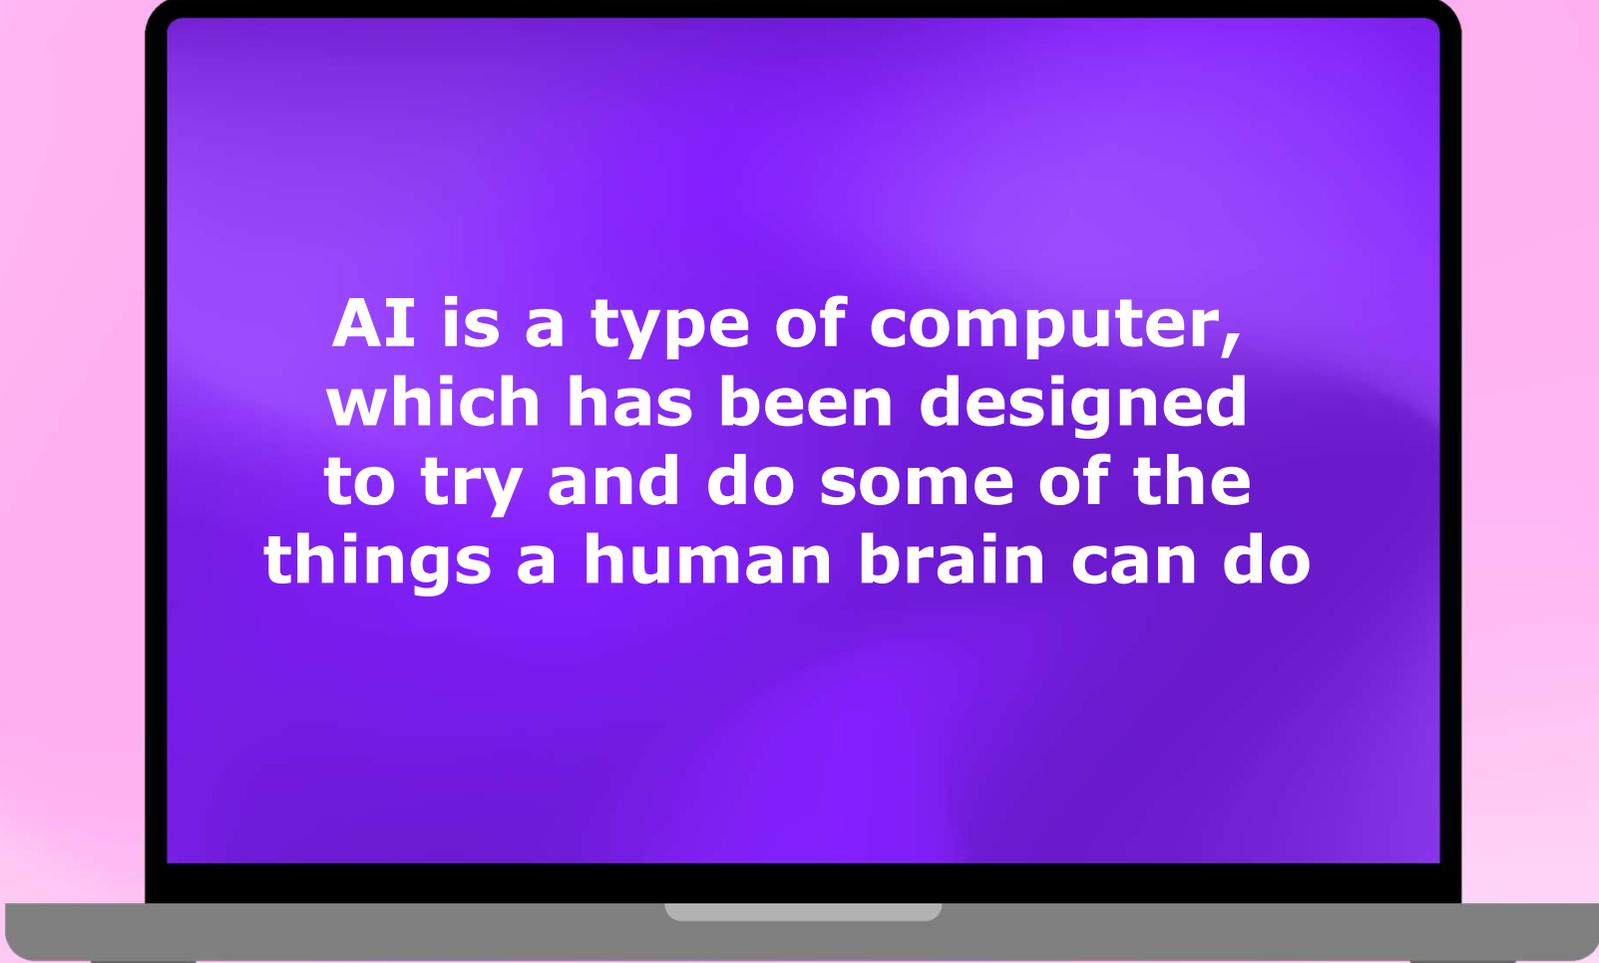

The government

**Companies
who make your
favourite apps
and games**

**Smart
tech,
safe
choices**

**Exploring
the safe
and
responsible
use of AI**

A stylized illustration of a laptop. The laptop is open, with a purple screen and a grey base. The background is a light pink color. The text on the screen is white and bold.

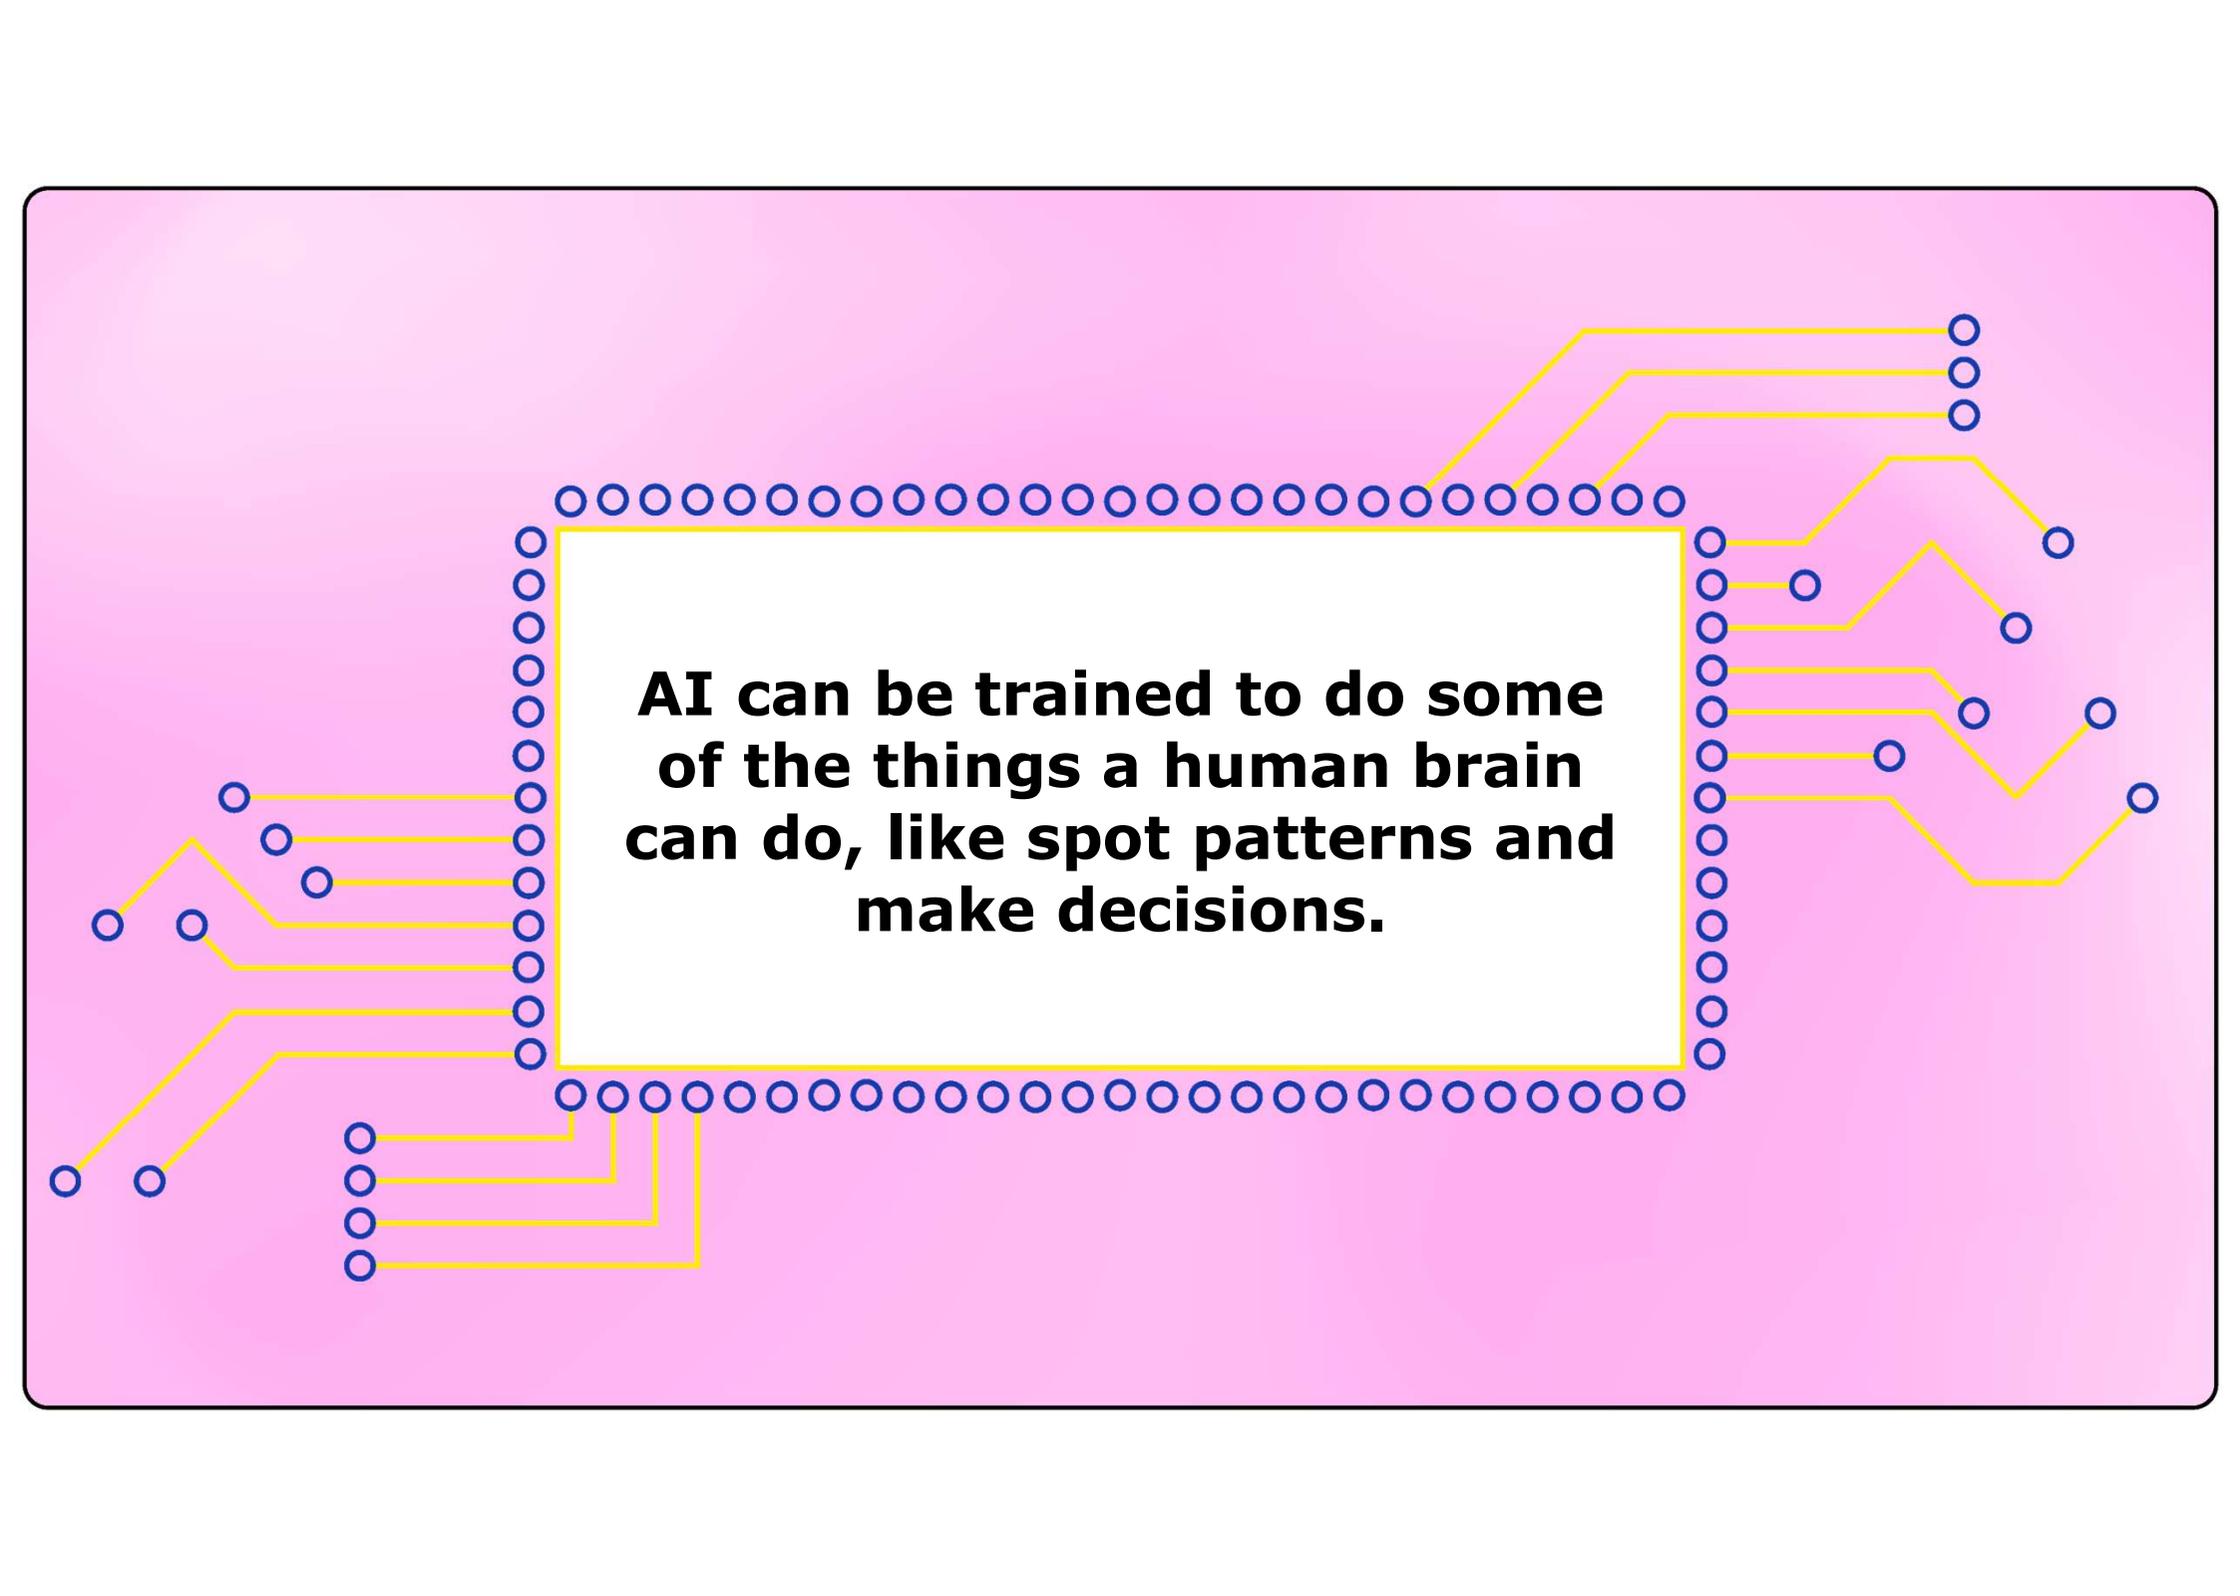

**AI is a type of computer,
which has been designed
to try and do some of the
things a human brain can do**

**'Our brains
are amazing!'**

**'They help us
think, feel and
make decisions'**

**'They use
information from
the world around us'**

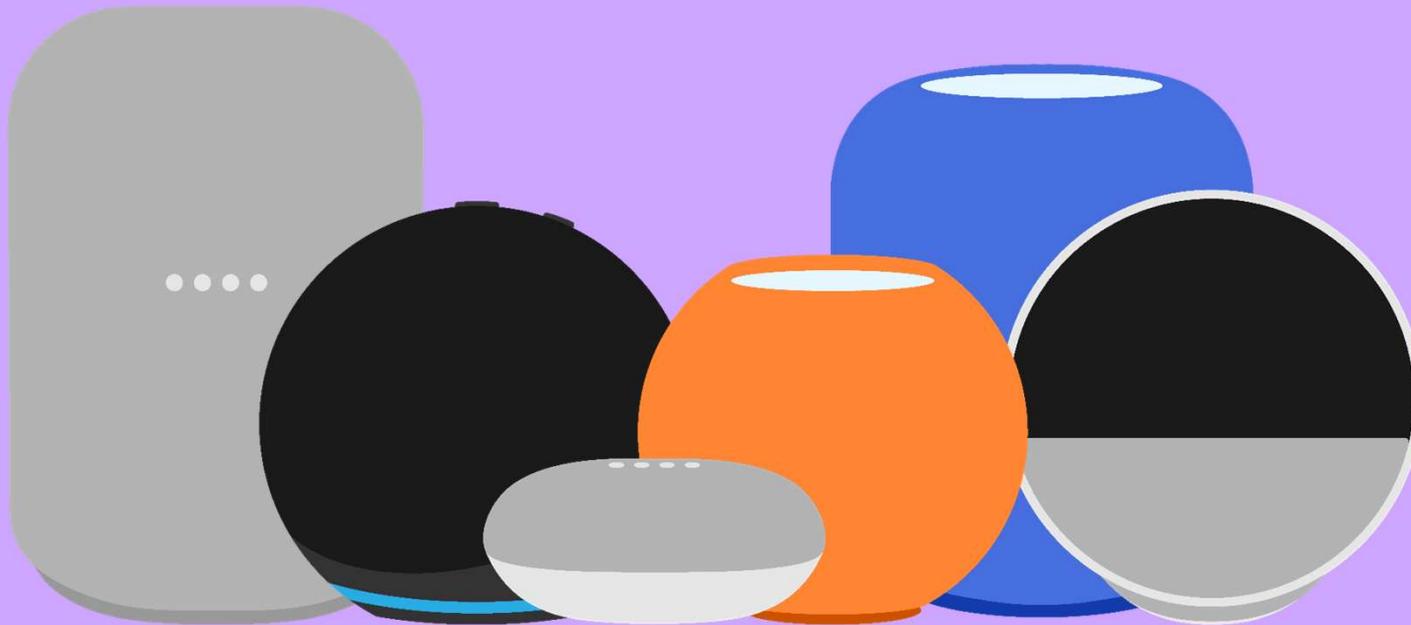

AI can be trained to do some of the things a human brain can do, like spot patterns and make decisions.

A yellow background with a white rectangular box in the center. The box contains the text 'Understanding voice assistants'. The box is surrounded by decorative circuit lines in a light purple color, with small circles at the end of the lines, resembling a printed circuit board (PCB) layout. The lines extend from the left, top, and bottom of the box.

Understanding voice assistants

What is a voice assistant?

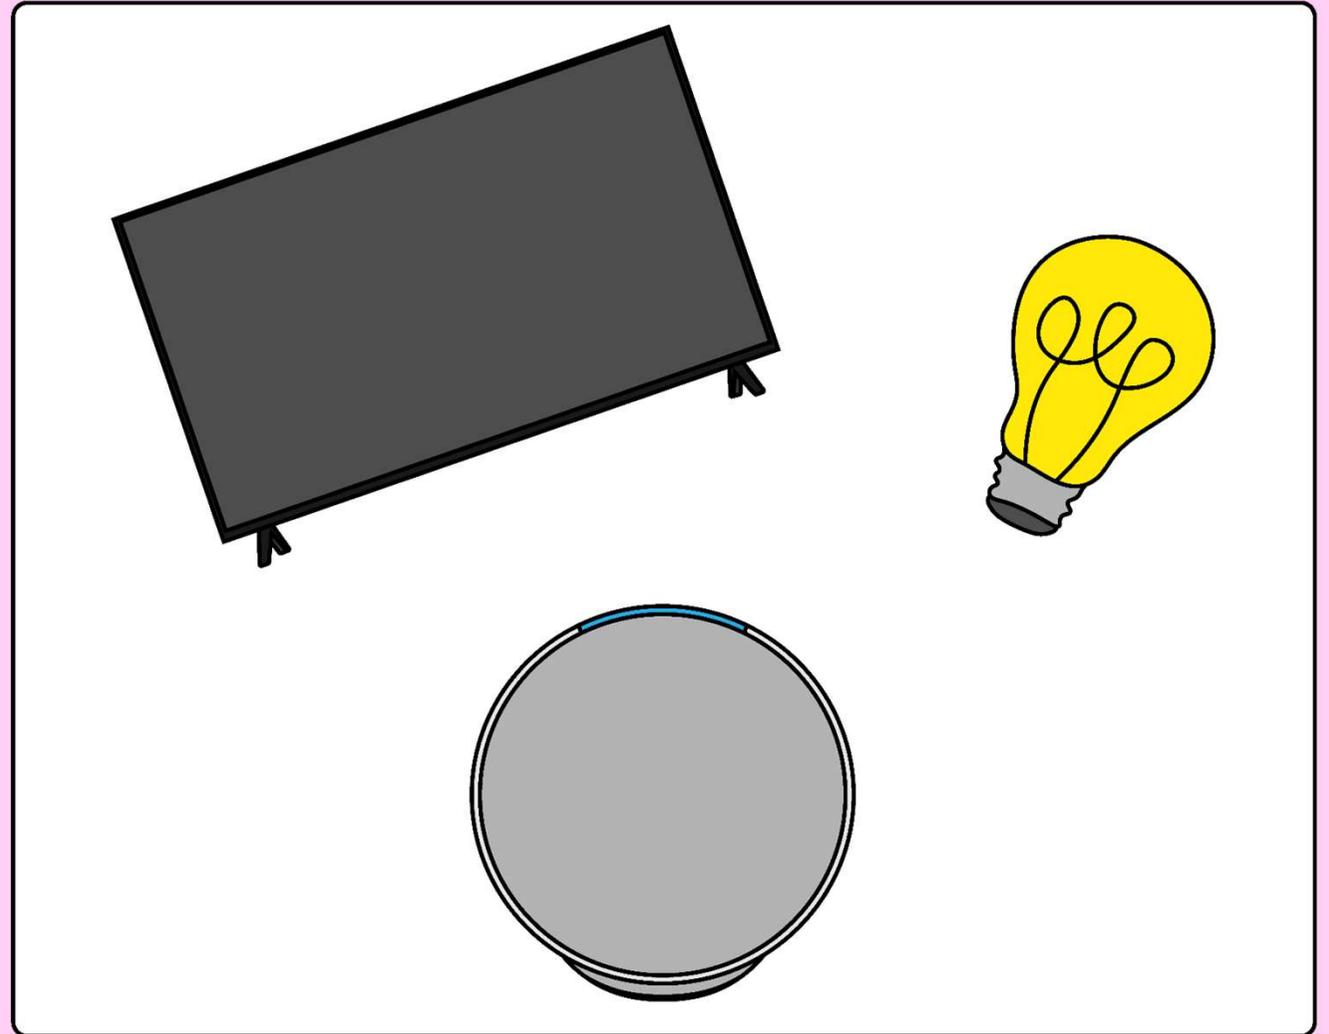

This is a voice assistant.

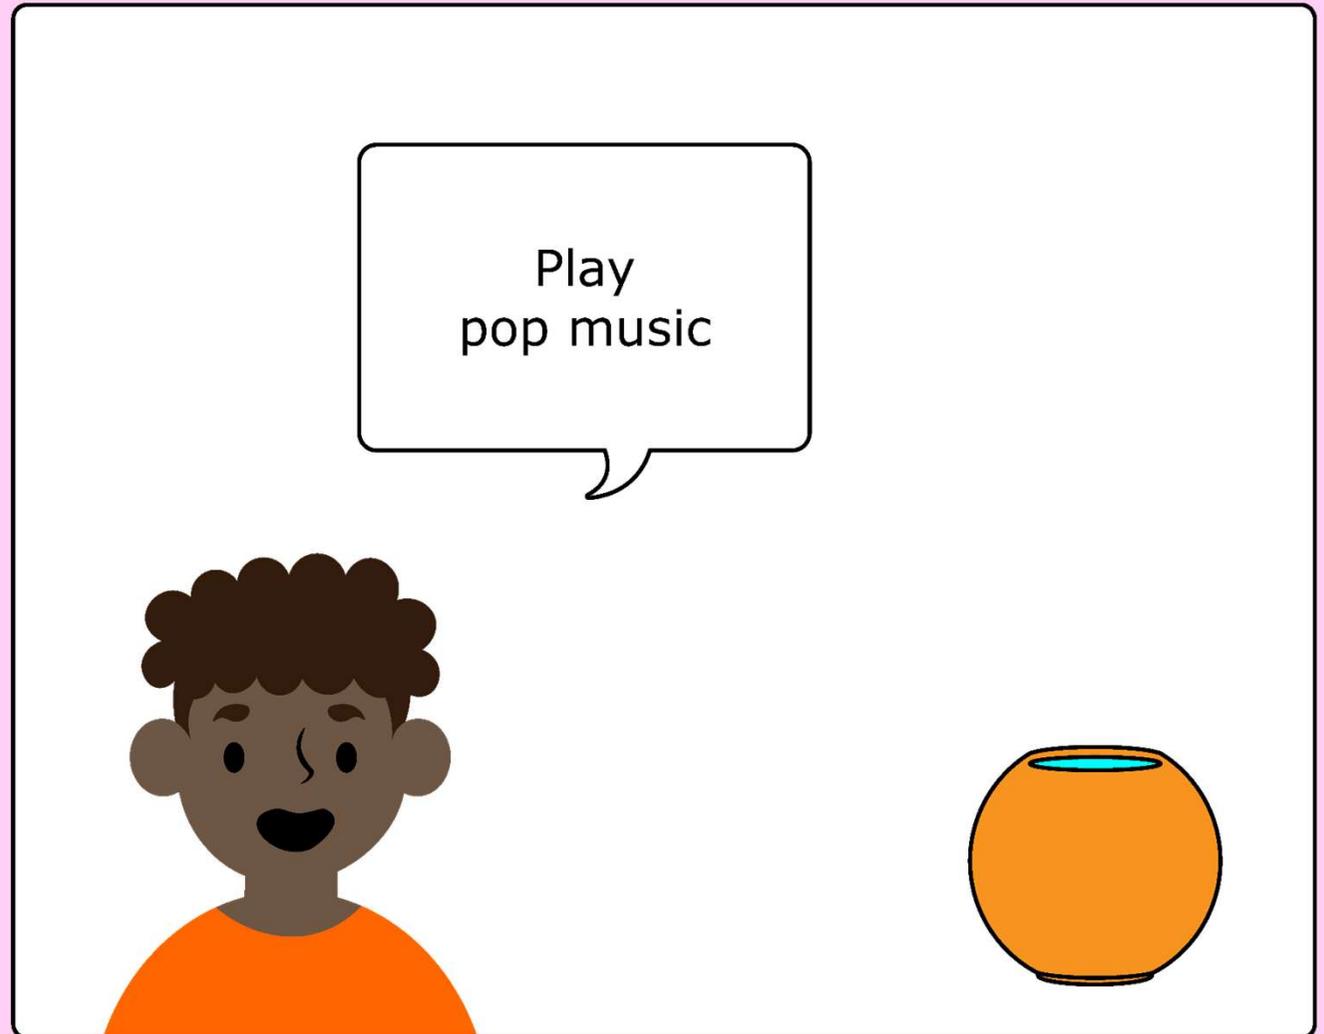

Voice assistants are a type of computer program and a form of technology.

They can access lots of information and can connect to other devices like lights and TVs.

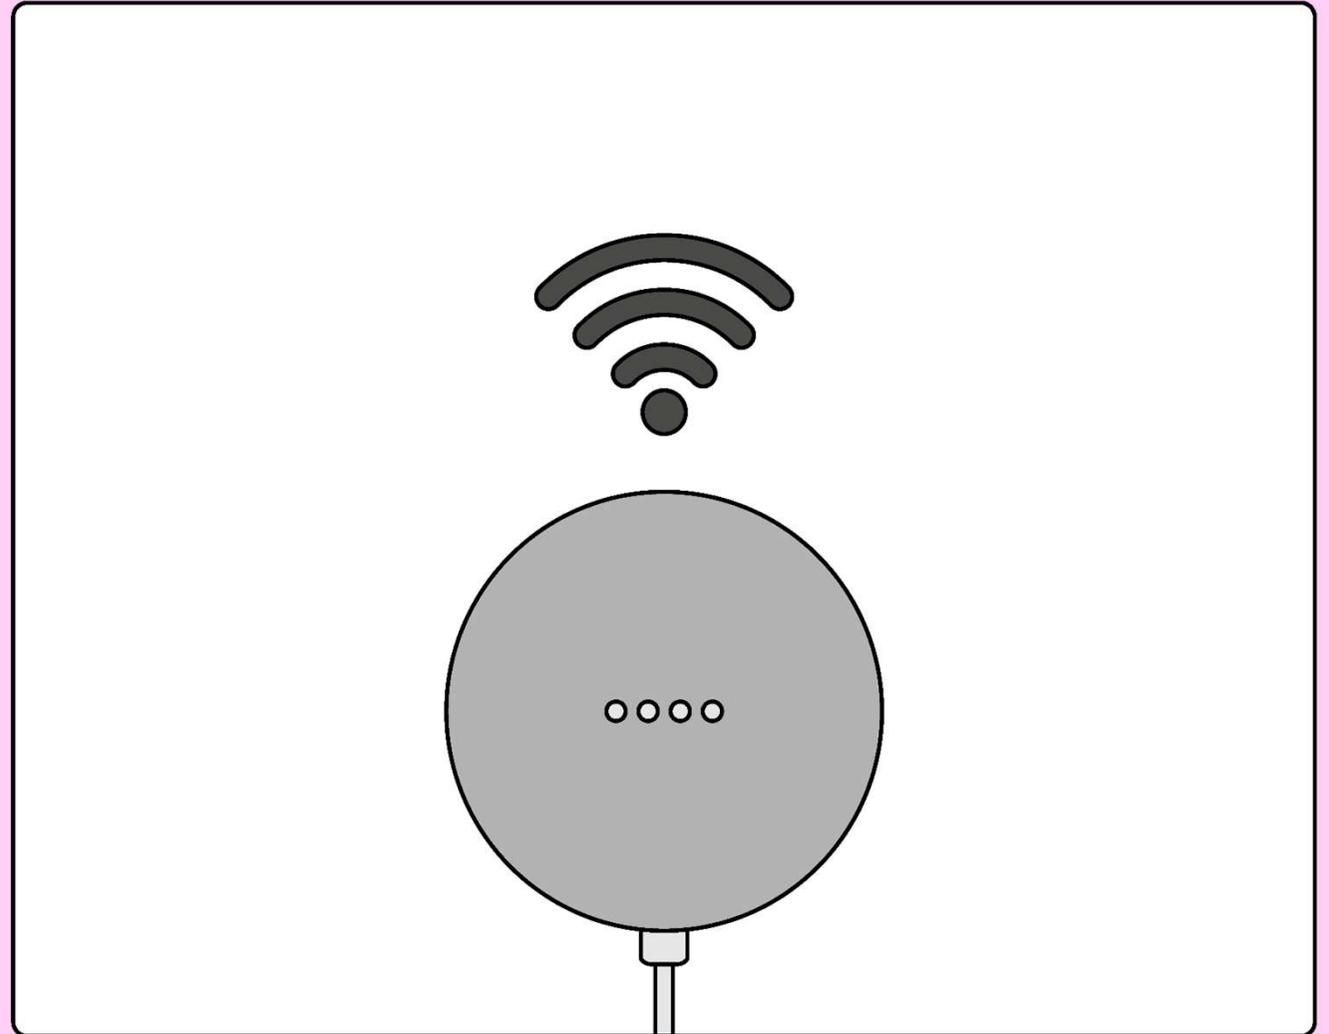

Voice assistants respond to speech.

They are often found on phones, speakers, TVs and watches.

Voice assistants need to be connected to the internet to work.

Some may also need to be plugged in.

AI is just a type of computer designed
to look like it can think

**There are lots of things you
can do that AI can't.**

ÀĚİÖŮ

AEIOU

'Sian uses AI to translate when she talks to her friend'

'Manu uses an AI speaker to play music'

'Rory uses AI to help with his homework'

'Issa uses AI to create nicknames for her classmates'

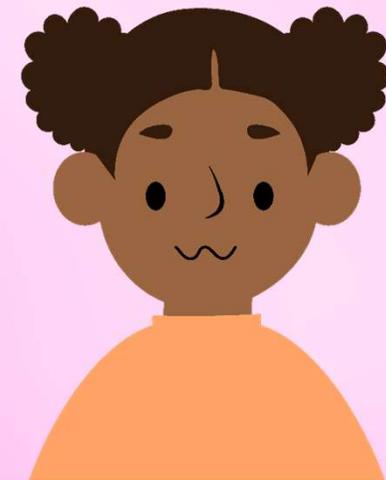

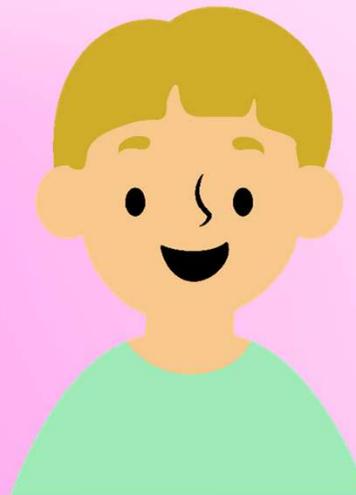

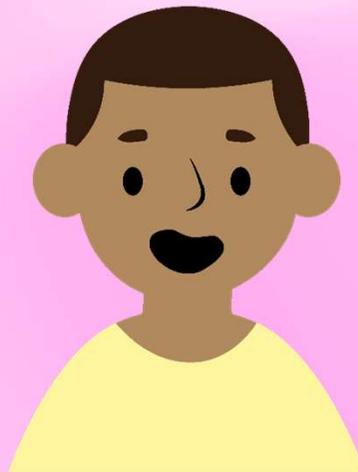

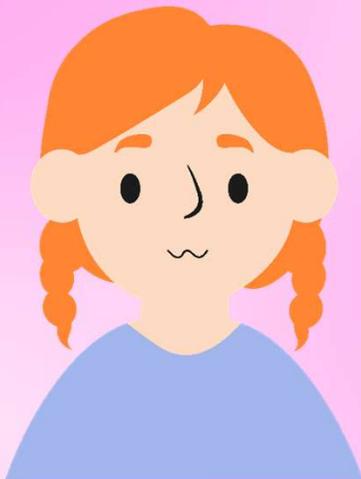

How can you stay safe when you use AI?

Think about how your use of technology makes other people feel

Check information to make sure it's reliable

Ask a trusted adult before using a new AI tool

Talk to a trusted adult if you are upset or worried

Who are the trusted adults you could talk to about things online or when using technology?

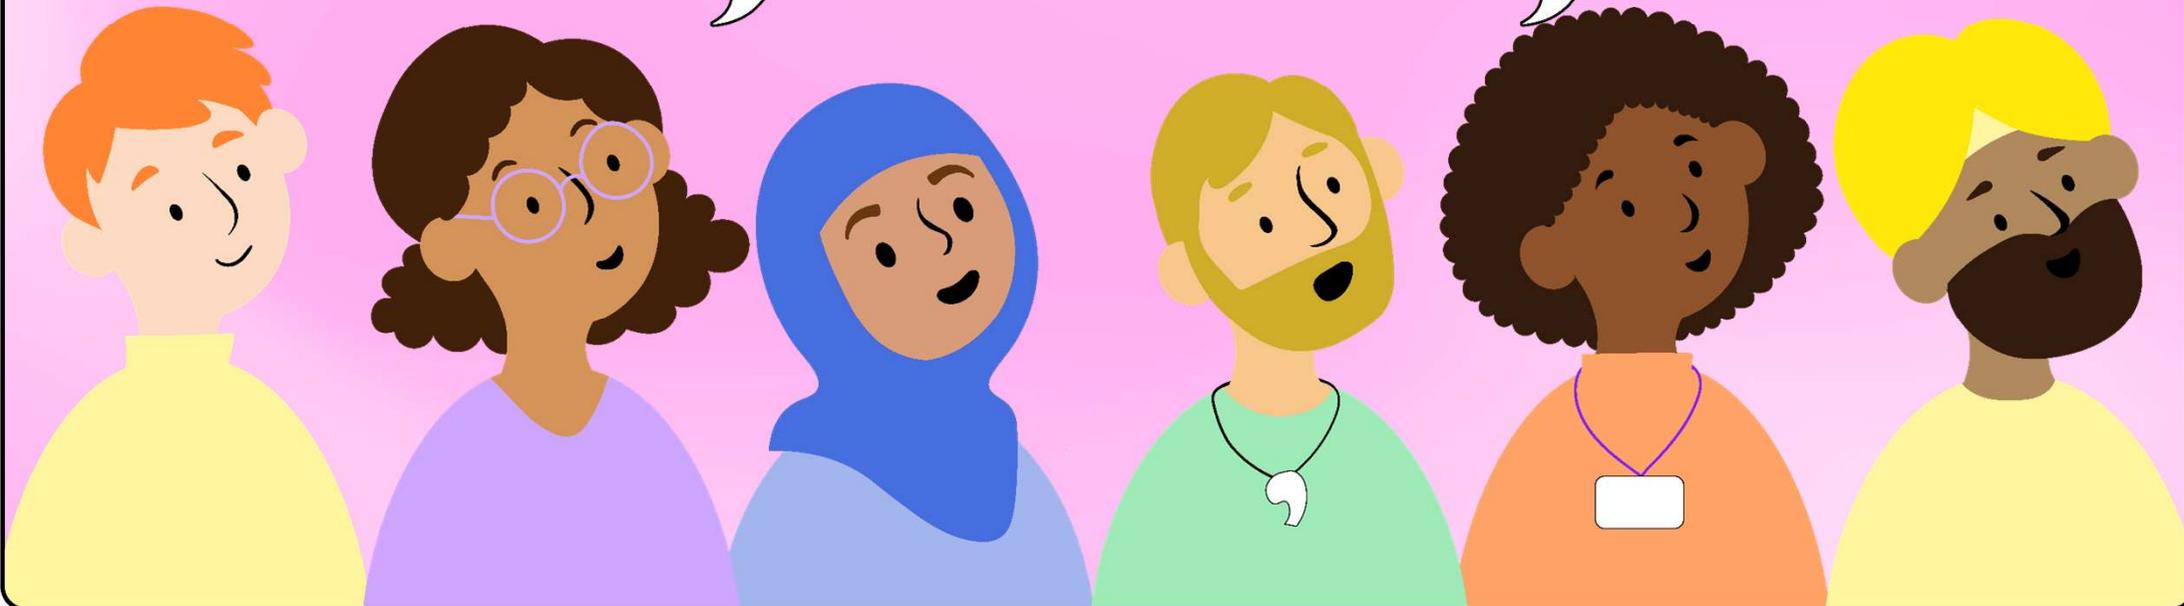

Parents or carers

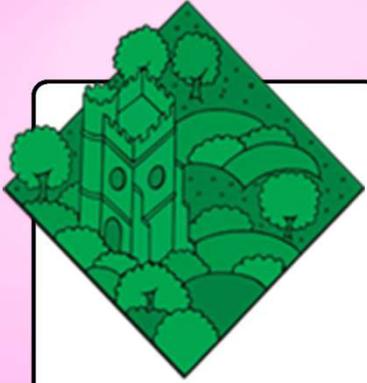

Grandparents

Auntie and Uncle

Teacher and teaching assistant

Sports club leader

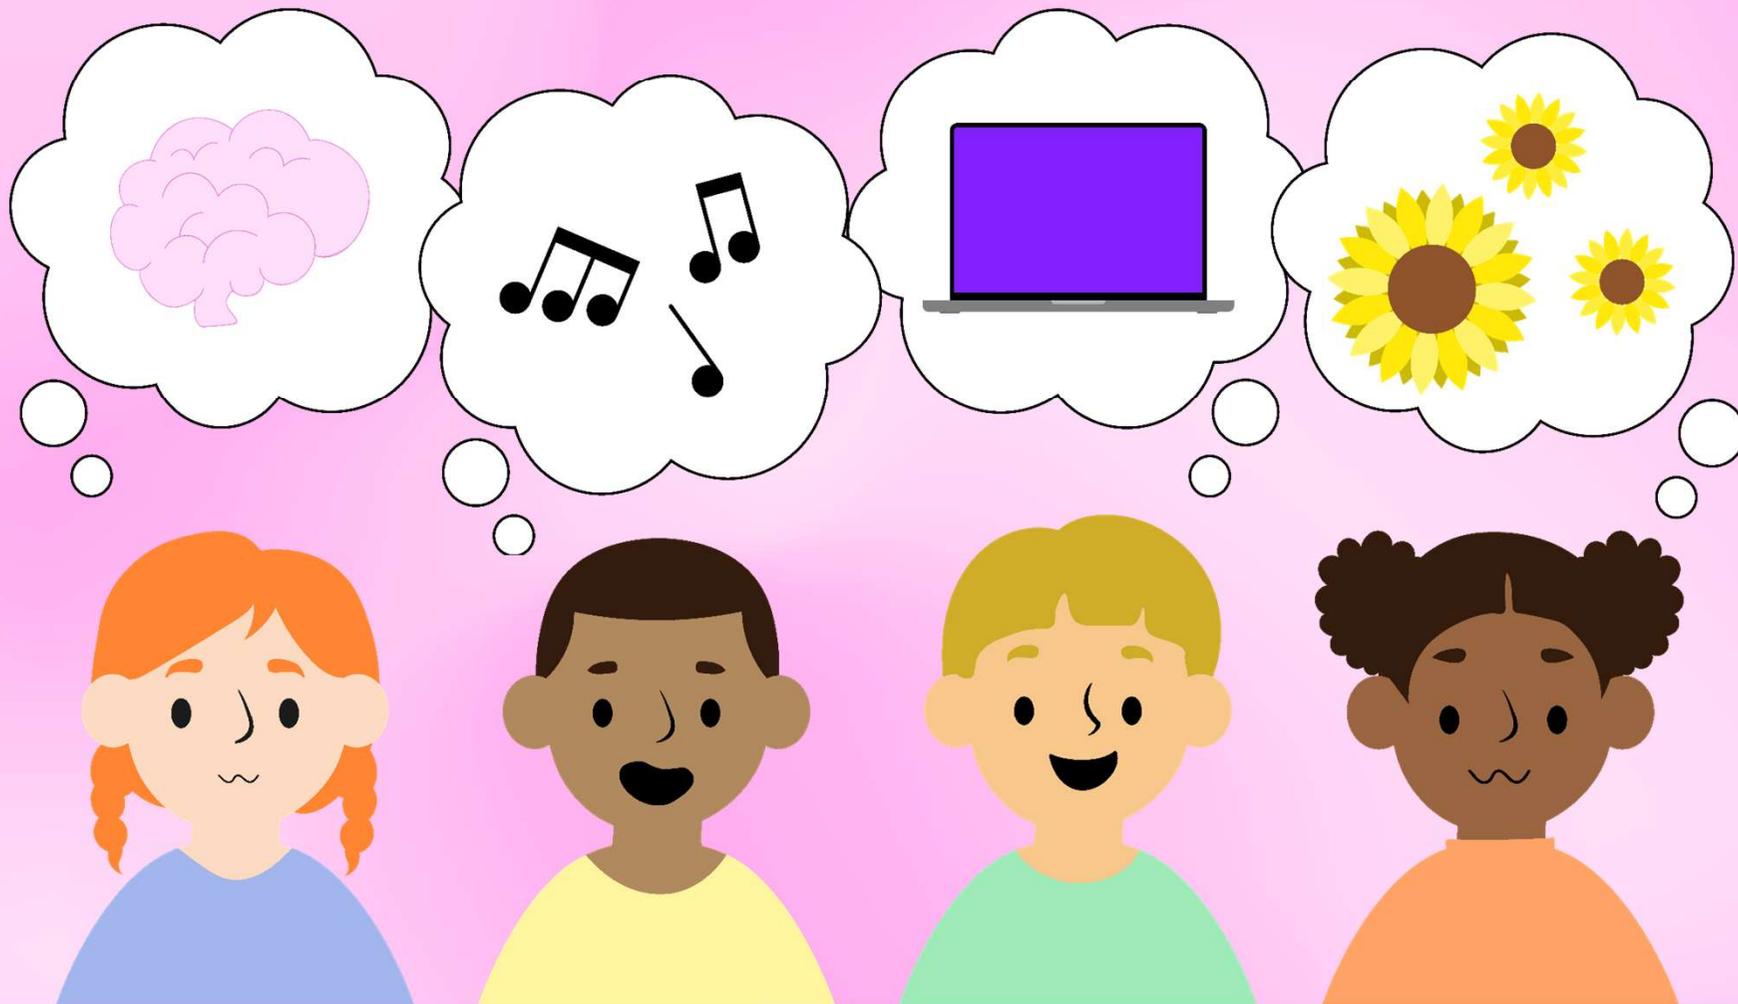

Getting Help at St Mary's

Can you think of
anyone at home or at
school who could help
you if you needed help?

I wonder what amazing things you might use AI for in the future...

Happy Safer Internet Day everyone!
